

I build the connective tissue between platforms that don't talk to each other — *and the systems product teams use to decide what to ship next.*

WHAT I BRING

Systems Integration Architecture

EHRs, ATSS, dental PMS, clearinghouses. I've turned brittle point-to-point integrations into scalable platforms at every company I've joined.

Operational Systematization

2x Roadmap Team of the Year. I build the intake systems and prioritization frameworks product orgs are missing. I fix how teams decide what to ship.

Engineering-to-Business Translation

Former software engineer. I read the architecture, not just the spec — and collapse strategy decks into briefs CTOs and CPOs both sign.

Cross-Functional Authority

The PM who can review a pull request, redesign a connector architecture, and rewrite the GTM narrative in the same week.

EXPERIENCE

DentalXChange / Senior Technical Product Manager — Platform Strategy DEC 2025 — PRESENT · MIAMI
xConnect · Connectors · DMD — three product lines, reporting directly to the CTO

- Own platform strategy across **xConnect, Reconcile AI, and Eligibility AI** — every major dental PMS (Dentrix, Open Dental, Denticon, Eaglesoft), **3M+ annual transactions, 1,800+ practices**.
- Defined Eligibility AI writeback architecture across all PMS platforms — **unlocked ~\$2M in enterprise pipeline** and made AI-powered benefit intelligence viable at the point of care.
- Architected Reconcile AI's connector model for automated EOB matching and payment writeback — projected **60%+ reduction in manual reconciliation hours** across the customer base.
- Consolidated three fragmented integration roadmaps into a single platform strategy — **40% less cross-team coordination overhead**, eliminated duplicate connector work across product lines.
- Rebuilt the connector delivery model end-to-end — **deployment time down 45%**, cleared a **6-month release backlog** in one quarter.

Radancy / Technical Product Manager — Integrations Platform FEB 2023 — DEC 2025
ATS Integrations Platform — 100+ enterprise clients

- Re-architected ATS integration from brittle point-to-point into a schema-agnostic data layer powering enterprise ML models — **62% CRM accuracy gain, 53% lift in applicant-to-hire conversion, platform reach expanded 40%** across 100+ enterprise clients.
- Shipped self-serve integration UI with AI recommendation logic — shifted ownership from engineering to specialists, **cut setup time 22%, reduced costs 30%, freed 400+ engineering hours quarterly**.
- Roadmap Team of the Year (2024)**. Authored the org-wide intake and prioritization framework now standard across product — **planning cycles from 3 weeks to 5 days**.

Health Note / Founding Product Manager FEB 2022 — FEB 2023
Digital patient intake — 500K+ patients, Series A health-tech

- Built the customer admin dashboard from zero — a self-serve onboarding tool that spins up a Health Note instance from a few lines of email input, **cutting time-to-revenue from 115 to 60 days**.
- One of two founding product hires. Owned full roadmap, led HL7/FHIR EHR integrations across **500K+ patients**, contributing directly to **28% YoY revenue growth**.

Regions Bank / Software Engineer → Product Manager FEB 2021 — FEB 2022

- Tapped by leadership to move from engineering into product. Redesigned **Mosaic**, the bank's HR ops platform — **300+ initiatives tracked, task completion +50%, 70% dashboard adoption in 90 days. Innovation Excellence Award, 2021**.

Minden Press-Herald / Editor & Software Engineer JUL 2018 — FEB 2021

- Rebuilt the publication's digital infrastructure, launched a subscription product — **readership +13.4%, sports revenue +46%**. Swept four Louisiana Sports Writing Awards including **Columnist of the Year**.
